IHEANYI OKWARA

DATA ANALYST | SQL | POWER BI | PYTHON | BUSINESS INTELLIGENCE

Canterbury, United Kingdom | 07826753182 | okwaraiheanyi70@gmail.com

PROFESSIONAL SUMMARY

- Data Analyst with hands-on experience in SQL, Python, Power BI, DAX, Power Query and Excel, delivering analytics projects across healthcare, telecommunications, manufacturing, entertainment and retail sales.
- Experienced in data cleaning, transformation, modelling, KPI reporting, dashboard development and performance analysis.
- Built reporting solutions covering 37 hospitals, analysed 3,500 service tickets and developed sales analytics dashboards reporting $24.9M in revenue and 25.2K orders.
- Combines practical analytics capability with over two years of NHS and healthcare experience, strong data quality awareness and the ability to translate complex data into actionable insights.

CORE TECHNICAL SKILLS

Data Analytics: SQL | Python | Pandas | NumPy | Exploratory Data Analysis | Data Cleaning | Data Transformation | Data Validation

Business Intelligence: Power BI | DAX | Power Query | Data Modelling | Dashboard Development | Data Visualisation | KPI Reporting

Databases & Tools: SQL Server | PostgreSQL | MySQL | Advanced Excel | Git | GitHub

Business Analysis: Trend Analysis | Root-Cause Analysis | Performance Reporting | SLA Analysis | Operational Analytics | Data Quality | Stakeholder Communication

PROFESSIONAL EXPERIENCE

Data Analytics Intern — Amdari | April 2026 – September 2026 | United Kingdom

- Developed an integrated Power BI dashboard addressing fragmented hospital capacity reporting across 37 hospitals, combining admissions, bed inventory and staffing data.
- Analysed capacity and staffing indicators using SQL, Power Query and DAX, identifying 86% average bed occupancy, 543 average available beds and 46.7% safe staffing-ratio compliance.
- Investigated service delivery across 3,500 tickets, 114 agents and 72 clients, using SQL and Power BI to identify a 21.5% SLA breach rate and backlog priorities.
- Applied Python, Pandas and SQL for cleaning, validation, transformation and exploratory analysis; built interactive Power BI dashboards and DAX measures.
- Investigated telecommunications outages, manufacturing downtime and viewer engagement, using analytics and visualisations to communicate operational and audience trends.
- Documented analytical workflows and project findings using Git and GitHub to support reproducibility and portfolio review.

Support Worker — 4Life Healthcare Services Ltd | June 2026 – Present | Canterbury, UK

- Maintain accurate digital care records, progress notes and incident reports, supporting continuity of care, monitoring and operational review.
- Monitor wellbeing and support requirements, escalating significant observations and documenting changes consistently.
- Coordinate structured shift handovers and check documentation for completeness, clarity and accuracy.
- Protect confidential personal and healthcare information in line with GDPR and organisational information governance procedures.

Healthcare Assistant – Bank Staff — Sandwell and West Birmingham NHS Trust | January 2025 – Present | UK

- Record patient observations and maintain structured digital documentation to support multidisciplinary care and safe handovers.
- Communicate significant changes in patient observations to clinical colleagues and support timely escalation.
- Review records for completeness and follow NHS confidentiality, GDPR and information governance requirements.

Healthcare Assistant — TL Care Services Ltd | October 2023 – May 2026 | UK

- Maintained accurate care records, daily progress notes and support documentation for continuity and routine service monitoring.
- Documented and communicated changes in wellbeing and care requirements; supported structured handovers and care quality reviews.
- Protected sensitive personal and healthcare information under confidentiality and information governance policies.

SELECTED ANALYTICS PROJECTS

Hospital Capacity & Workforce Analytics | Power BI, SQL, DAX
Developed a consolidated dashboard across 37 hospitals integrating admissions, occupancy, bed inventory and staffing data. Identified 86% average bed occupancy, 543 average available beds and 46.7% safe staffing-ratio compliance.

Service Ticket & SLA Performance Analysis | SQL, Power BI, DAX
Analysed 3,500 tickets involving 114 agents and 72 clients. Identified a 21.5% SLA breach rate, examined escalation and backlog patterns and recommended improvements to monitoring.

Telecom Network Outage Analytics | SQL, Python, Power BI
Analysed telecommunications outages to identify recurring disruptions, investigate potential root causes and visualise operational performance trends.

GreenTech Production Downtime Analytics | SQL, Power BI, DAX
Analysed production downtime by machine and line using Pareto analysis and delay-rate measures. Built interactive dashboards and a presentation communicating operational bottlenecks.

StreamWave Viewer Engagement & Retention Analytics | SQL, Power BI
Analysed viewer engagement, content performance and retention patterns. Developed SQL queries, interactive dashboards and a presentation supporting content and retention decisions.

AdventureWorks — Sales, Product & Customer Performance Analytics | Power BI, Power Query, DAX
Built four Power BI analytical dashboard pages from 2020–2022 sales, product, customer and returns data. Reported $24.9M revenue, $10.5M gross profit, 25.2K orders and a 2.2% return rate. Evaluated product returns, customer segments, targets and pricing what-if scenarios.

EDUCATION

BSc Human Anatomy — University of Port Harcourt | 2004–2009

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Google Data Analytics Professional Certificate | Applied Data Analytics
